Powerful & Easy To Use

VisionGauge's® programmable computer-controlled illumination option:

‣ Is extremely easy to set up and configure

‣ Is easy to use and has a very simple and intuitive interface

‣ Allows you to control up to four individual light sources

‣ Is fully programmable (i.e. allows you to program different repeatable light configurations and intensities at different measurement points)

‣ Increases measurement repeatability

‣ Is perfectly integrated with all of VisionGauge's® other tools
